

OMKAR DESAI

Full Stack Developer

Mumbai, Maharashtra | +91 84540 53146 | omkard2702@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Fresher Full Stack Developer with hands-on experience building production-grade MERN stack applications featuring real-time communication, scalable architecture, and JWT-based authentication. Known for strong attention to detail, effective communication, and collaborative problem-solving. Proficient in React.js, Node.js, MongoDB, Redis, and Socket.IO. AWS and Google Cloud certified. Seeking an entry-level Full Stack Developer role to contribute to engineering teams.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL **Frontend:** React.js, HTML5, CSS3, TailwindCSS **Backend:** Node.js, Express.js, REST APIs, Socket.IO

Databases: MongoDB, MySQL, SQLite, Redis **Tools:** Git, GitHub, Vercel, Render, JWT, Cypress

Concepts: DSA, OOP, Distributed Systems, WebSockets

PROJECTS

DeliverEase — Real-Time Package Delivery Tracker

2026

React.js | Node.js | Socket.IO | MongoDB | Redis | Leaflet.js | JWT | Cypress

- Built a full-stack MERN app for live package tracking with real-time GPS updates via Socket.IO and interactive maps using Leaflet.js and OpenStreetMap.
- Implemented JWT authentication with 3 user roles (customer, agent, admin), protected routes, and API rate limiting for production-level security.
- Achieved 100% pass rate across 73 Cypress E2E automated tests, validating all user flows and API endpoints.

SyncDocs — Real-Time Collaborative Document Editor

2025

React.js | Node.js | Socket.IO | MongoDB Atlas | Redis | TailwindCSS | Vite

- Designed a real-time collaborative editor supporting simultaneous multi-user editing using a custom Operational Transformation (OT) algorithm for conflict-free sync.
- Architected multi-instance scalability using Redis Pub/Sub (Upstash) for cross-server event broadcasting across Node.js instances.
- Integrated .docx import/export via Mammoth.js and docx.js for Microsoft Word interoperability.

EDUCATION

Bachelor of Engineering — Computer Engineering

Aug 2023 – May 2027

Fr. Conceicao Rodrigues College of Engineering, Mumbai

CERTIFICATIONS

AWS Academy Graduate — Cloud Architecting

2026

- Gained hands-on experience with core AWS services: EC2, S3, VPC, RDS, IAM, Elastic Load Balancers, and Auto Scaling Groups, following the AWS Well-Architected Framework.

Google Cloud Career Launchpad — APAC

2026

- Gained practical exposure to Google Cloud Platform (GCP) covering cloud infrastructure, compute services, storage, and machine learning workflows.
