EDUCATION

Fr. Conceicao Rodrigues College of Engineering, Mumbai

Bachelor of Engineering in Computer Engineering | 2023 – 2027

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frontend: React.js, HTML, CSS

Backend: Node.js, Socket.IO

Databases: MongoDB, MySQL, SQLite, Redis

Tools & Platforms: Git, GitHub, Vercel, Render

Concepts: Data Structures & Algorithms, OOP, REST APIs, WebSockets, Distributed Systems, Machine Learning

PROJECTS

DeliverEase — Real-Time Package Delivery Tracker

/ Live / React.js / Node.js / Socket.IO / MongoDB / Redis / Leaflet.js / JWT / Cypress

- Developed a full-stack MERN app for live package tracking with real-time GPS updates via Socket.IO and interactive maps using Leaflet.js and OpenStreetMap
- Secured with JWT authentication supporting 3 roles (customer, agent, admin) with protected routes and API rate limiting
- Validated with 73 Cypress E2E tests — 100% pass rate across all user flows and API endpoints

SyncDocs — Real-Time Collaborative Document Editor

/ React.js / Node.js / Socket.IO / MongoDB Atlas / Redis / TailwindCSS / Vite

- Designed and built a full-stack real-time collaborative editor from scratch supporting simultaneous multi-user editing with a custom Operational Transformation (OT) algorithm for conflict-free sync
 - Architected multi-instance scalability using Redis (Upstash) Pub/Sub for cross-server communication across Node.js servers
 - Implemented .docx import and export using Mammoth.js and docx.js, enabling document interoperability
-

CERTIFICATIONS

AWS Academy Graduate - Cloud Architecting

Gained hands-on knowledge of core AWS services including EC2, S3, VPC, RDS, IAM, Load Balancers, and Auto Scaling. Learned to design resilient, scalable cloud architectures following AWS best practices.

Google Cloud Career Launchpad – APAC

Gained practical exposure to Google Cloud Platform covering cloud infrastructure, compute, storage, and machine learning workflows on GCP.

ACADEMIC & PRACTICAL EXPOSURE

- Solved Data Structures and Algorithms problems in Java to strengthen problem-solving skills
- Developed full-stack applications using React.js, Node.js, Express.js, and MongoDB
- Worked with WebSockets and Redis Pub/Sub for real-time communication systems
